Operational Capability
Weapon System Availability
Logistics Element Performance
Delivery Performance
Category 1:
Gov't determines all PSP requirements, procures elements, measures Materiel Availability performance & adjusts elements
Category 2:
Provider responsible for some Materiel Availability elements or Mean Down Time but not configuration
Gov't determines all PSP reqtms, procures elements, measures Materiel Availability performance & adjusts elements
Category 3:
Provider responsible for Materiel Availability by managing the configuration (including reliability), Mean Down Time & Ownership Costs
Gov't determines weapon system quantity
Gov't determines Materiel Availability reqtms & measures performance.
Category 4:
Provider responsible for providing the Operational Capability including determining the weapon system quantity
Gov't measures Performance per interval (e.g. steaming hours, flying hours, miles, launches, etc. per month)
Functional Scope

Provider **Performance Metric/Objective**	Delivery Agreement	Logistics Response Time	Materiel Availability	Operational Capability
Functional Scope (responsibility of the provider for a specified cost)	▪ Transactions	▪ Planning ▪ Executing some element of Maintenance and/or the Supply Chain e.g.: ▪ Transportation ▪ Repair	▪ Planning ▪ Design ▪ Config. Mgmt. ▪ All Supply Chain elements & Maintenance	▪ Quantity ▪ Operations ▪ Design ▪ Config. Mgmt. ▪ All Supply Chain elements& Maintenance
Financial Risk To Achieve Materiel Availability	Provider **Program Manager**	Provider **Program Manager**	**Provider** **Program Manager**	**Provider** Program Manager
